Term 4: Electricity Checklist

Topic	Learning Outcomes	RAG	
		1	2
Y7 Electricity (REVISION)	Describe how charged particles interact		
	Describe what causes static electricity		
	State which particle moves in an electrical current		
	Compare electrical conductors and insulators		
	Use a simple model to describe the difference between current and potential difference (voltage)		
	State the units of current and potential difference		
	Explain why current is the same at all points in a circuit		
	Describe the difference between a series and parallel circuit (Set 1)		
	Calculate the current in a series and parallel circuit (Set 1)		
	State how to measure current and potential difference		
	Draw complete circuit diagrams using a rule, pencil and straight lines		
	Draw a range of common circuit symbols e.g. wire, voltmeter, bulb		
	Describe the difference between AC and DC and give an example of the uses of each
