Term 6 Checklist: Forces

Topic	Learning Outcomes	RAG	
		1	2
Forces	Describe the difference between contact and non contact forces		
	State which variable goes on each axis		
	Draw force arrows on objects that are at rest or moving		
	Calculate the resultant force of an object when two forces are acting on it		
	State the units of mass and weight		
	Explain why your weight changes on different planets but your mass does not		
	State the equation that links speed, distance and time.		
	State the units of speed, distance and time		
	Calculate speed, distance or time using the equation s = d/t. Try this one: A car travels 90m in 45s. What is its speed?		
	Describe factors that affect stopping distances		
	Describe the difference between braking distance and thinking distance
