Q1.

(a) The apparatus in the diagram below is used to obtain pure water from impure water.

(i) What temperature would the thermometer show?

.....°C

1 mark

(ii) What is the function of the piece of apparatus labelled R?

.....

.....

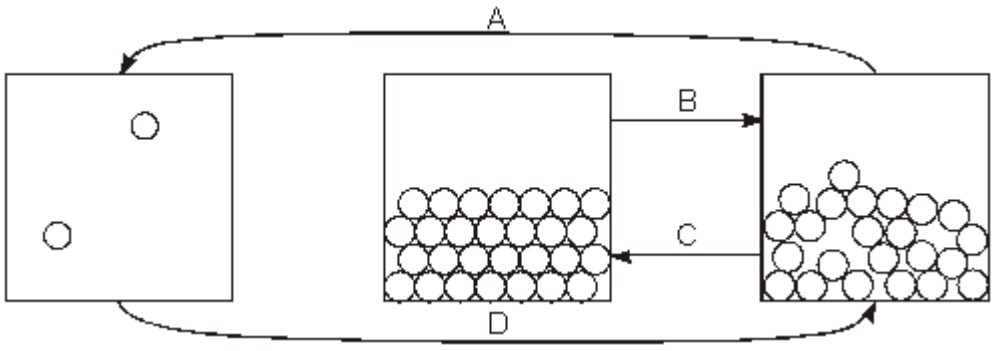

1 mark

(iii) Give the name of the process which purifies water in this way.

.....

1 mark

(b) The diagram below shows particles in a gas, a solid and a liquid.
Each arrow, A, B, C and D, represents a change of state.

(i) Choose from the following words to complete the sentences below.

boiling **condensing** **distilling** **evaporating**

filtering **freezing** **melting**

Change of state A is called ..... .

Change of state B is called ..... .

Change of state C is called ..... .

Change of state D is called ..... .

4 marks

(ii) Look back to the apparatus in part (a).
Give the letter, A, B, C or D, from the diagram above, for the change of state which occurs:

in the round-bottomed flask .....

in the piece of apparatus labelled R. .....

2 marks

Maximum 9 marks

Q1.

(a) (i) 100

accept answers from 98 to 100

1 (L5)

(ii) to condense the water vapour

accept 'to change the gas into liquid'

***or** 'condensation' or 'condenser'*

accept 'to cool the vapour into water'

*do **not** accept 'to cool the vapour or water'*

1 (L5)

(iii) distillation **or** distilling

1 (L5)

(b) (i) evaporating **or** boiling

1 (L6)

melting

1 (L6)

freezing

1 (L6)

condensing

1 (L6)

(ii) A

accept 'boiling'

1 (L6)

D

accept 'condensing'

accept the letters written in the correct places on the diagram

1 (L6)
