Q1.

Gareth was writing to a pen-friend. This is how he described himself:

I am a boy. **I weigh 600 N.**

I am 16 years old. **I speak French.**

I have brown eyes. **I have a scar on my chin.**

I am 1.8 m tall.

(a) From the list, choose **two** features which he must have inherited and which will **not** have been affected by his environment.

1. .....

2. .....

2 marks

(b) From the list, choose **two** features which will have been affected by both inherited and environmental factors.

1. .....

2. .....

2 marks

(c) Gareth measured the heights of the 16-year-old pupils at his school. He recorded the distribution in a bar chart.

He also collected data about the features in the list below.

Which **two** features would show a similarly shaped distribution to Gareth's bar chart?

Tick the **two** correct boxes.

Ability to roll the tongue. ☐

Presence of ear lobes. ☐

Mass of the pupil. ☐

Circumference of the head. ☐

Sex of the pupil. ☐

2 marks
Maximum 6 marks

Q1.

(a) brown eyes

accept 'eyes'

1 (L7)

boy

answers may be in any order

*do **not** accept 'height'*

1 (L7)

(b) 1.8 m tall

answers may be in any order

1 (L7)

600 N

accept 'height'

accept 'weight'

accept 'speaks French'

1 (L7)

(c) mass of pupil ✓

1 (L7)

circumference of head ✓

if more than two boxes are ticked, deduct one mark for each incorrectly ticked box - minimum mark zero

1 (L7)
