Q1.

(a) any **one** from

- white light is a mixture of colours
- white light contains green light

1 (L7)

the green light passes through

*accept for two marks 'all the other colours are absorbed **or** filtered out'*

accept for two marks 'only the green light passes through'

1

(b) (i) red

because red light passes through the filter

***both** the colour and explanation are required for the mark*

1 (L7)

(ii) black

accept 'she cannot see it'

1 (L7)

any **one** from

- because red light will **not** pass through
- a green filter absorbs red light

accept 'only green light passes through'
